Do you take prescription meds? Does someone you love take prescription meds? Did you know that properly prescribed meds is the number three cause of death in America?

NATURAL HERBS TO DISSOLVE TUMORS

My people perish for lack of knowledge. Hosea 4:6

For all of you who desire answers to physical problems and desire to build better health naturally here is some information on the historical use of herbs.

The natural *Pure Herbs* information shared below about dissolving tumors is an excerpt from the book *Herbal Extracts: Build A Better Health With Liquid Herbs*. This information is not intended to be a substitute for medical advice by licensed physicians. A reader should consult a physician regularly in all matters relating to medical problems, especially in matters of diagnosing, treating or curing diseases or other physical or mental conditions.

Herbs are plant food substances. This is not a scientific definition, it is a practitioners definition. It is used by the people who make recommendations about how to build better health naturally. Herbs have been used since people began eating. They are not new and they were used long before there were people who called themselves doctors or scientists and they worked and they still do.

There is a solution to every physical problem. It was meant to be that way. It is not experimental. Since there are so many physical differences between us, it stands to reason one herb may do more for a certain person than another but do not despair. There is an herb for you too. Often there are many herbs that are especially helpful for you, just waiting, to be discovered.

Luckily when eating an herb if the wrong one is taken, nothing much happens and if you do eat too much of it, body mechanisms usually reject it and you leave it alone. Part of the fun is discovering your herb or herbs and in the process an acquaintance with herbs that help other people is gained.

One of the ways to tell what an herb will do is to taste a little of it. This is much easier to do with a liquid herb than a tablet or a capsule but in any case it should be done before you ask anyone else to try an herb so it will at least be known if what the label says is in the bottle, is in the bottle.

Please accept this offer to build better health naturally. The information was written because you are respected and appreciated, and loved. Someone does care about you and would like to see you well. Herbs are your birthright. Discover yours.

- Dr. A.B. Howard

Sanicle | 1st Pure Herb for Dissolving Tumors

*T**his* is a herb that leadership at Healed People, Heal People has personally taken. As well, I know others who have taken this herb specifically to dissolve or shrink fibroid tumors with great success. It is imperative that a person changes their quality and types of food eaten. There are many regular foods that contribute to the growth and increased size of fibroid tumors and cysts in people. So, what am I saying here? Please, please, let's deal with the root of the problem, your quality and type of food intake, in addition to this herb.

The American herbal practitioner, Jethro Kloss, in his monumental work, *Back To Eden*, aptly describes Sanicle in this manner: This is one of the herbs that could be called a cure-all because it possesses powerful cleansing and healing virtues both internally and externally.

Sanicle's great strength includes its uncanny ability to seek out and find anything, which needs correcting and works on that area first that needs it most. It also deserves distinction as a thinking herb. In other words, if you've got it, Sanicle will find it and fix it, whether the tumor is in the reproductive organs,

brain, nervous system, lungs, throat, urinary system or elsewhere. Sanicle is a bulldozer and builder. There may be temporary discomfort when Sanicle contacts an unwanted obstruction, but it is your reassurance that Sanicle has scored a direct hit. Skin disorders, tumors [also brain tumors], and all manner of morbid material are resolved by Sanicle. Prolapsis of the uterus [fallen uterus], melancholy [due to toxins], thin mother's milk, morning sickness, diabetes, bee stings, and intermittent fever indicate general categories of its ubiquitous [seemingly everywhere] application.

Dosage | 40 drops two to three times per day. If a brain tumor, also apply to entire scalp, back to neck and temples. Rub one tablespoon into the scalp at night and wear a shower cap. Wash the area in the morning. During day rub Herbal Adjustment [another natural herb that can be ordered] into scalp 3 times per day.

To order Sanicle, click [here](index.php?option=com_virtuemart&page=shop.product_details&flypage=vmj_funky.tpl&category_id=236&product_id=623&Itemid=145).

Chuchuhuasi | 2nd Pure Herb for Dissolving Tumors

Rather than just working on the relief of symptoms, Chuchuhuasi apparently works on the actual cause of anti-tumor properties. This is the South American Indian name for the rain forest tree known botanically as *Maytenus macrocarpa*. Its home is the steamy jungles of Peru, where it is well known and used by the people, especially in and around Iquitos, Peru on the Amazon river. Because of the remoteness of this area, its use was unknown to the rest of the world until recent times. Yet, it is now, perhaps, the most popularly used rain forest herb in Peru. Life in a jungle environment means dealing with infections, bites and diseases of many kinds. Remedies must be found and used. Chuchuhuasi serves this multi-purpose function, and it is commonly taken in the liquid extract form. Among Chuchuhuasi's strongest properties is the building of immunity and, at the same time, enhancing sexual activity and function. The ability of Chuchuhuasi to do this has attracted strong scientific interest.

This is accomplished by using the root bark as a liquid and taking orally three times per day. Rather than just working on the relief of symptoms, Chuchuhuasi apparently works on the actual cause of arthritis and, in this manner, restores joints to working order. This, of course, has aroused considerable excitement in the scientific community.

The same can be said regarding Chuchuhuasi's anti-tumor properties. The United States Department of Agriculture has isolated the alkaloid [active bitter compound] maytansine as being most prominent in the compounds believed to be active in the shrinkage of tumors.

As if all this would not be enough to recommend the daily use of Chuchuhuasi, it is also applied to the skin to repel jungle mosquitos. Now, the mosquitos of the Peruvian jungle are rumored, by the local inhabitants, for the benefit of tourists, to be, So large you can hear them when they walk, and Senior, they may even possess backbones! At any rate, accounts of their ferocity are legendary and Chuchuhuasi undoubtedly a welcome remedy.

Dose | 40 to 80 drops 3 times per day as maintenance. 1 tsp. 3 times per day for more serious cases. Externally as given above.

To order this Pure Herb Chuchuhuasi click [here](index.php?option=com_virtuemart&page=shop.product_details&flypage=vmj_funky.tpl&category_id=30&product_id=190&Itemid=145).

Greasewood | **3rd Pure Herb for Dissolving Tumors**
This remedy comes from the American Indian Pharmacopoeia [listing of official Indian medicines]. Greasewood bush has dark, sticky, resinous-filled leaves and stems. It has the distinct taste of telephone poles or creosote, hence its common name Greasewood Bush.
It performs a very valuable service as a douche for the female system [20 drops of extract to a cup of water]. Greasewood is not valuable due to the rising fungi [funguses], in the body.
Jason's Winter Red Clover tea blend employs Greasewood as an agent to dissolve tumors and cancers on the advice of the American Indian. Indeed, of the Indian nations, the Eapoch, Pimas, and Maricopias of the desert southwest have long employed Greasewood to be effective in the following conditions: weight reducing, prostate trouble, skin and stomach cancer, leukemia, cancer, arthritis, warts, chronic backache, bronchitis troubles and to stimulate normal hair growth.
Dosage | 10 to 40 drops 1 to 3 times per day depending on severity of condition. 2 to 3 bowel movements per day are recommended, when using Greasewood [also known as chaparral] to complete the cleaning process.
To order this Pure Herb Greasewood click [here](index.php?option=com_virtuemart&page=shop.product_details&flypage=vmj_funky.tpl&category_id=237&product_id=625&Itemid=145).

Lapacho | **4th Pure Herb for Dissolving Tumors**
Properties and uses | cancer and cancer preventative
Experienced herbalists consider that both the tabebuia altissima [purple flowered] and tabebuia avellanedae [red flowered] varieties should be mixed together for the best possible effects.
South American medical doctors proclaim nothing short of miracles for quick relief of pain for cancers of all types, as well as, their cure within one month in many cases. Once again, South American Indians made known a tree that they have used for thousands of years to cure their people.
The first was the Cinchona tree bark that yields quinine and cures malaria. Lapacho taken as a boiled tea 3 times per day [one heaping teaspoonful of the bark to make one cup of the tea] is reported to be their method. The extract is possibly many times stronger if made properly. The chemistry of Lapacho is quite well known to the scientific world.
Dr. Frederick Koch, M.D., used substances from the tree bark called quinones during the 1930s in Detroit, MI, with astonishing results to cure even advanced cancer cases before going to South America in order to continue his practice. He especially used a single quinine that he described as oxidizing or burning up the encapsulated pockets of stagnant cancer-causing points. He reports in this way he was able to provide oxygen for the breadth of life to continue for the patient.
Lapacho actually has 16 quinones never before discovered together in nature. The jungle Lapacho tree is completely immune to fungus infections unlike other trees. It should not be thought that the limit Lapacho's abilities are confined to cancer, according to Alec de Montmorency, expert on exotic folk remedies. He has collected medical information during the last 20 years on the use of Lapacho in various South American countries.
He reports the following list of problems that medical doctors using Lapacho have solved: anemia, leukemia, cancer of all types, lupus, inflammation of the

reproductive organs, Hodgkin's disease, Parkinson's disease, colitis, arteriosclerosis, gastric problems, leucorrhoea, cystitis, hemorrhages, prostate inflammation, polyps, psoriasis and eczema.

Dosage | South American information indicates 40 to 80 drops of the extract in a cup of water 3 to 4 times per day. 20 drops per day as a preventative.

To order this Pure Herb, Lapacho click [here](index.php?option=com_virtuemart&page=shop.product_details&flypage=vmj_funky.tpl&category_id=147&product_id=726&Itemid=145).

Una de Gato

5th Pure Herb for Dissolving Tumors

Una de Gato is a Spanish named herb pronounced that means claw-of-cat or, as we would say in English, cat's claw. In the remote area of Iquitos, Peru, where Una de Gato is at home, it is very widely used and depended upon to handle a wide variety of problems, including those of a serious nature. Here is what is listed in Peru as the traditional and accepted South American Native Folk Medicinal uses of Una de Gato.

Una De Gato can be taken to correct arthritis, rheumatism, cancer, gastritis, irregularities of the female cycle.

From all reports, this is one of the South American Indians' very best arthritis remedies. Although it is not scientifically accepted, people there use it and get rid of their arthritis, including the type we call rheumatoid arthritis, where the body is actually fighting itself.

Una de Gato is also, especially, noted for its anti-viral properties, tumor dissolving properties, its effects on cellular regeneration and cardiovascular repair. As in all jungle areas, one of the things which must be guarded against is infections.

Una de Gato is a potent immune system builder. This is especially important in conditions described as rheumatoid arthritis and or osteoarthritis, where the body is attacking itself, commonly called auto-immune reactions. Una de Gato reestablishes the proper immune system orientation for cells that are true friends and those that are the actual foes.

A strong immune system is essential to reversing the effects, and prevention, of any kind of disease. Hence, a wide range of disorders are reported to be corrected by the use of Una de Gato in Peru and Europe.

Very well documented South American medical information shows Una de Gato to be nearly miraculous in combating cancer, even in advanced stages, where as much as 10% of body cells are in a state of metastasis. Because of the shared reputation Una de Gato has earned for itself, no immune problem or cancer is regarded, in Peru, as incurable.

Dose | 40 drops, 3 times per day to maintain immunity. For disease conditions listed above, 1 tsp. to 1 tbl. 3 times per day.

With the use of Una de Gato, as with any herb that destroys bad cells [cancer], do use a good bowel management program which produces two, and preferably three, easy and complete bowel movements per day. In this manner, the wastes and poisons the body is getting rid of, can be eliminated from the body and nausea is prevented. This allows the body to clean itself up and to get well.

Common sense and good sense, both, demand that you eliminate anything from the diet and the environment which is a poison. A good place to

start, regarding what you eat, is any food with any kind of chemical additives such as: chemical dyes, preservatives, flavor magnifiers, stabilizers, pesticides, herbicides, and the like. Eliminate junk foods - and you do know what those are.

To order this Pure Herb, Una de Gato click [here](index.php?option=com_virtuemart&page=shop.product_details&flypage=vmj_funky.tpl&category_id=111&product_id=282&Itemid=145).

Whole Apricot | 6th Pure Herb for Dissolving Tumors

Dr. Ernest J. Krebs, a noted authority on cancer, has often stated that if a person eats 6-12 apricots kernels per day, they will never have to worry about cancer. He recommends peach or cherry kernels, as well. Contained within these kernels is a very small amount of a substance called nitriloside amygdalin [laetrile, vitamin B-17]. It goes directly to a cancer cell, stings it, and kills it.

This is especially true of glandular cancers, such as the prostate and other glands. The same is true for moles on the skin and internal tumors. For moles, take Whole Apricot internally and also apply Whole Apricot and Oil of Cajeput, 3 times per day, to the area until corrected. There is no fear necessary for this extremely small amount of cyanide; remember Vitamin B-12 is also a cyanide compound and is absolutely essential to life or a person develops a deadly disease known as pernicious anemia.

Head lettuce, as a further example, contains a very small amount of opium. Although it is not recommended, head lettuce does not cause a person to go unconscious or stupefied, and head lettuce is still eaten. Once you taste apricot kernels, you can recognize an accentuated almond taste. That is the part that kills the cancer cells. It is also present in almonds, but to a much lesser extent. You may find your body is hungry for this taste and the truly wonderful effect it has. The safe rule is not to eat any more apricot kernels than you would of the apricot fruit during a day.

Dose | 10-20 drops per day, as a daily maintenance. 40 drops to 1 tbl. 3 times per day, if cancer in the body. Keep the bowels open to expel the dead, nauseating cells and poisons with a good bowel program which produces 2, and preferably 3, bowel movements per day.

If necessary to quickly relieve the nausea of this regimen, take, as needed, 10 to 40 drops of a poison antidote such as black cohosh or virginia snake root. Additionally, an enema can be taken. Usually, within 10 minutes of taking the enema you will feel better. If necessary, repeat the enema.
